I certify that the service for which this customer is claiming a rebate on this application meets the requirements shown in this application and has been performed at the installation address listed above. I have read and agree to the terms and conditions shown in this application.

Technician Signature _____ Signature Date _____

GENERAL TERMS AND CONDITIONS

All information for the requested rebate as well as customer and technician signature must be completed. Only complete applications will be processed. Customers must apply for rebates within three months of the service date shown on the receipt/invoice. The rebated service must be performed where electric service is provided by the Utility on a retail basis. The Utility and/or its designees reserve the right to review installations to verify completion and to ensure compliance with all program requirements. Misrepresentation of installation location, measure eligibility, or implementation may result in forfeiture of the rebate and exclusion from the program. Due to limited funding, this rebate offer can be withdrawn at any time without notice, and is available on a first-come, first-served basis. After satisfactory review of the rebate form and other required documentation, a rebate check or bill credit will be issued to the customer. Please allow 60 days from the receipt of this form for the delivery of the rebate or bill credit. The Utility does not guarantee that the implementation of energy-efficiency measures or use of the equipment purchased and installed pursuant to this program will result in energy or cost savings. The Utility does not endorse any particular vendor, manufacturer, or product, and makes no warranties, expressed or implied, with respect to any service or equipment purchased or installed including, but not limited to, any warranty of merchantability or fitness for purpose. In no event shall the Utility be liable for any incidental or consequential damages.

TERMS AND CONDITIONS

Only one tune-up rebate per cooling unit every two years.
Tune-up must be performed on an air conditioner or air source heat pump of 5.5 tons or less between April 1 and Sept 30 of the respective calendar year.
The cooling equipment must be in working condition (this rebate program is for tune-ups only; not for repairs).
Program does not apply to window/room air conditioning units or ductless/mini-split units.
Tune-up must include all services listed in the Service Checklist.
Tune-up must be performed by a licensed and insured heating/cooling contractor.
